

## **ISRAEL IS A HOSTAGE!**

JULY 8, 2019. Hard words and comments by Jerry Golden. Messianic ministry in Israel.

Iran says if the US attacks it will destroy Tel-Aviv and all of Israel within half an hour. And if they don't release the Iranian oil tanker headed to Syria it will attack a British tanker in the Persian Gulf. Keep in mind we are not dealing with normal humans these are Islamic evil sick people who want to bring in their 12<sup>th</sup> Imam who you will call the anti-Christ.

In the meantime Iran also says they will begin today (June 7<sup>th</sup>) to enrich uranium as high and as much as they please with no possible other reason but to build nuclear bombs.

For years they have been the main financial support for Hezbollah, Hamas, Islamic Jihad and many others to kill Christians and Jews. It would be difficult to find a civilized country that hasn't had its citizens killed because of the Iranian support for terrorism around the world, yet America or no other nation seems to be willing to stop the insane Islamic evil that comes from their sick evil twisted minds.

Today Trump has the forces in position to put an end to this evil regime and by all appearances Iran is calling Trumps bluff (if he's bluffing), believing that Trump is putting too much emphasis on his re-election. The time needed for the election 2020 is more than enough time for Iran to finish the plan to have enough nukes to attack Israel and possibly the US as well.

### **HOLDING ISRAEL AS HOSTAGE SHOULD NOT WORK FOR IRAN.**

As for this Israeli I say the longer we wait the worse and harder it will be to destroy them or stop most of their missiles from hitting Israel. We here in Israel are fully aware that this war will be terrible and we also know the reason it will be so terrible – because we have waited far too long to rid the world of this evil.

The reason the US and Israel have waited this long is the same reason; they are hesitating today for politics and elections. These elected officials are more concerned about their jobs than they are the people and country they are supposed to be serving.

But with Trump sitting there in the Gulf with all that fire power, Iran is now resorting to threats and taking hostages. I believe they are scared and they should be. Trump may be too? I pray he is the one world leader who puts his calling as leader of the United States before his personal wealth and safety – but loves his country enough to make the hard decisions. The best time to strike a bully like Iran is as soon as he threatens you.

It's obvious to me that Trump has accepted God's calling on his life but accepting that calling and keeping one's eye on the higher calling can be a real challenge with all the distractions. You and I have a real obligation to pray for him to make the right decisions and to always have the courage to do what is necessary. There is no easy way to handle Iran because it has been put off for too long by cowardly politicians.

The main concern of this ministry is being prepared and ready to set sail in hopes of having all the emergency communications and contacts in place and functioning. How I pray for God to speak into the hearts and souls of those He has brought to this ministry.

Pray for the peace of Jerusalem. Shalom, *Jerry Golden*

## **CALIFORNIA : A WHOLE LOT OF ROCKING IS GOING ON**

The earth hasn't stopped rumbling under Southern California since July 4, when a powerful **6.4**-magnitude earthquake rattled Ridgecrest and the surrounding area.

A second major quake with a magnitude of **7.1** that struck the next day, jolted much of California, cracking buildings, setting fires, breaking roads and causing several injuries.

**Nearly 5,000 quakes were registered within 48 hours.** Thousands of aftershocks are coming every day, and seismologists are warning that large shocks could be expected to continue for days; and there could be 30,000 could afflict the state in the next six months.

California is in panic mode right now, not simply because of an earthquake or two, but because of what is anticipated. Many Californians are choosing to sleep in their yards rather than be inside their homes. That's how bad it is. Scientists say it is only going to get worse.

There's been an average of **one aftershock per minute** since Friday's quake in the southern part of the state, according to the U S Geological Survey

**The Governor of California** has declared **extreme emergency** in the state, and has instructed the State Operations Centre to be activated at the "highest level."

## **EARTHQUAKES ... A GREAT WEAPON IN GOD'S HAND**

The Bible tells us that the weather is a great weapon at God's disposal , and He uses it in judgement as we see in the book of Revelation during the time of Jacob's trouble. In fact, earthquakes are one of the 'heavy hitters' in God's closet.

After Friday's 7.1 quake, three quakes of magnitude 5 or greater struck within the first hour. After an earthquake as powerful as the one that hit on Friday, residents can expect an aftershock reaching up to a magnitude of 6.0, officials said, and should even be prepared for a scarier shake.

"I would probably start taking some stuff off the walls if they're not already down," Ridgecrest Police Chief said. "Make sure you're not sleeping under something that's still hung up."

The chief warned residents to stay prepared and load up on supplies while stores are still open, "just in case that we have something bigger than we had today." He said residents should remain vigilant for the next two weeks.

"This isn't going to stop in the near future," he said. "The aftershocks haven't slowed down since the 7.1 earthquake."

## **SCIENTISTS WARN A MUCH LARGER EARTHQUAKE IS COMING**

We just witnessed the largest earthquake to hit the state of California in twenty years, and it definitely shook a lot of people up, but the truth is that it **is not even worth comparing to "the Big One"** that scientists assure us, is coming some day.

"The Big One" will be at least 100 times more powerful than what we just witnessed.

Scientists are telling us that the Ridgecrest quake didn't "relieve pressure" or make "the Big One" any less likely. In fact, they continue to insist that we are way overdue for "the Big One" and that it is likely to be "**125 times stronger**" than the earthquake that we just witnessed...

Theoretically, a magnitude 9.0 earthquake would release **7,943 times as much energy** as the Ridgecraft earthquake, and that would easily be the most destructive natural disaster that we have ever seen in all of U.S. history up to this point. One day it will happen, and it will be worse than anything that Hollywood has ever dreamed up.

A few years ago, a team of scientists discovered that previous earthquakes in the distant past caused the ground in southern California to sink by up to three feet in just a matter of moments. Their research led them to the conclusion that if a similar earthquake happened today, large portions of southern California would fall into the Pacific Ocean “**almost instantly**” ...

Without a doubt our planet is becoming increasingly unstable and **now is not a good time to be living in California**. And although we don't have the ability to forecast earthquakes like we can forecast the weather, scientists all over the globe are in agreement that southern California is way overdue for “the Big One.”

Hopefully the recent earthquakes will wake some more people up, but of course most Californians will quickly forget it. Unfortunately for them, the clock is ticking and one day, the **disaster will strike without warning**.

## **THE “BIG ONE” HAS BEEN FORETOLD IN SCRIPTURE**

**REV 16:17-21** “The seventh angel poured out his bowl into the air; and a loud voice came out of the temple *in heaven* from the throne, saying, ‘It is done!’”

“Then there were flashes of lightning and sounds and peals of thunder; and there was a great earthquake, such as there had not been since man came to be upon the earth, so great an earthquake was it, and so mighty.

“The great city was split into three parts, and the cities of the nations collapsed. And God remembered Babylon the Great and gave her the cup *filled* with the wine of His furious wrath *and indignation*. And every island fled away, and the mountains could not be found.

“And huge hailstones from heaven, *each weighing* about a talent (*about 40 to 50 kilograms*), fell upon men; and men blasphemed God on account of the plague of hail, because the plague was extremely severe.” (Revelation 16:17-21)

**REV 6:12-17:** “I watched as He opened the sixth seal; and there was a great earthquake; and the sun turned black like sackcloth made of *dark* hair, and the moon became blood-red; and the stars of the sky fell to earth, as a fig tree drops its unripe figs when shaken by a strong wind.

“The sky vanished like a scroll being rolled up; and every mountain and island were moved out of their places.

“Then the kings of the earth, the great men, the generals, the rich, the mighty, and every slave and free man hid themselves in the caves and among the rocks of the mountains. They called to the mountains and to the rocks, ‘Fall on us and hide us from the Presence of Him (*the Almighty*) who sits on the throne, and from the wrath of the Lamb; for the great day of His wrath has come; and who is able to stand (*before it*)?’”

(Revelation 6:12-17)
