[Amir Tsarfati: The Illuminati and the One World Government](#)
(Click on this live to bring up the web link)

I don't normally send utube items.
But this one is particularly informative on the Illuminati.

You may have read my book "MYSTERY 666",
first published in 1977. Last reprint May1991. It is out of print now.

But this attached audio message, by Israeli current events exponent, Amir Tsarfati,
goes into much more depth, of the origins and workings in the
Illuminati World Govt conspiracy.

It's a bit long but it will amaze you. - Don

**"But when these things begin to take place,
straighten up and lift up your heads,
because your REDEMPTION IS DRAWING NEAR."
- Y'SHUA. (Luke 21:28)**
