

IRAN POISED TO STRIKE US / ISRAELI TARGETS.

US FORCES GEAR UP FOR ACTION. USS LINCOLN CARRIER ENTERS THE GULF

26 Nov 2019. The US and Iran ramped up their **preparations for direct military engagement** on Monday, November 25: A top Iranian general's threatened to destroy the US, Israel and Saudi Arabia, [see following article] and the USS Abraham Lincoln Carrier Strike Force **moved into position opposite central Iran's coastline.**

Addressing a mass pro-government rally in Tehran, Iran's Revolutionary Guards chief, General Hossein Salami, shouted, **while burning US and Israeli flags, "We have shown restraint ... we have shown patience towards the hostile moves of America, the Zionist region and Saudi Arabia against the Islamic Republic Iran,"** said Salami.

"If you cross our red lines, we will destroy you. If Iran decides to respond, the enemy will not have security anywhere. Our patience has a limit."

Reliable military sources find the clue to Iran's next move in his assertion that its patience has a limit. It indicates that while up until now Tehran hesitated to set a date for its next strike on an American or an Israeli target – or both – **Iran has now finally decided to go forward.**

Aware that this strike may come at any moment, CENTCOM chief, General Kenneth McKenzie predicted on Saturday that Iran will probably launch another attack in the Middle East. He was speaking at a regional security conference at Manama, Bahrain, and noted that, despite the American troop build-up in the region, Tehran had not hesitated to attack Saudi oil fields on September 14.

Iran's leaders were also **spurred toward military action** by the return of the USS Lincoln carrier strike force to the Gulf **for the first time since May**, when the vessel moved into the Arabian Sea.

Large-scale US marine, navy and air might aboard the Lincoln **are now in position opposite Iran's shores.**

They also took note of the arrival in Israel of General Mark Milley, Chairman of the Joint US Chiefs of Staff, and his quiet talks with Chief of Staff Lieutenant General Aviv Kochavi.

Their joint statement – **"The two generals discussed operational questions and regional developments"** – was interpreted in Tehran as meaning that the US and Israel **had finalized coordinated plans for joint military operations against the Islamic Republic.**

Since last week, Israel has been **on high war alert** for Iran's potential payback for its wide-ranging air strike on Al Qods positions near and south of Damascus on November 20.

It is estimated in Israel and the US that multiple Iranian personnel were killed. **They did not expect Tehran to let this go without responding.**

Developing rapidly.....

TOP IRAN GENERAL THREATENS TO DESTROY US, ISRAEL & SAUDI ARABIA

26 Nov. 2019. Iran's Revolutionary Guards chief, General Hossein Salami, shouted on Monday: **"If you cross our red line, we will destroy you."** Accusing the US, Britain, Israel and Saudi Arabia of stoking the anti-government protests over fuel price hikes, he said: **"We will not leave any move unanswered. We have shown restraint ... we have shown patience towards the hostile moves of America, the Zionist regime (Israel) and Saudi Arabia against the Islamic Republic of Iran."**

Shaking his fist, he said, **"if Iran decides to respond, "the enemy will not have security anywhere."**

Are they crazy enough to initiate a war with the USA and Israel? A war they could not possibly win? They may have no alternative? We must wait and see!

RUSSIAN TRANSPORT SHIP SPOTTED ENTERING MEDITERRANEAN WATERS WITH TANKS & ARMoured VEHICLES

25 Nov. 2019. A Russian transporter ship has been spotted entering into Mediterranean waters via the Bosphorus Strait; The ship is part of the **Russian Black Sea fleet**; It is reported to be heading to Syria with several tanks and armoured vehicles aboard.

Azov 151, a massive Russian transport ship, was spotted entering the Mediterranean Sea a few hour ago. It's a likely assumption that Azov 151 is making its way to Syria, as this is the fifth trip it has made in 2019 and **the third trip in the last two months.**

Russia's military presence in Syria is continuing to grow as their partnership with the Assad regime against Syrian rebel forces **moves forward**. Recently, it was announced to the public that approximately three months ago, a Russian submarine was even spotted off the coast of Tel Aviv.

The pieces on the prophetic chessboard are moving into position every day now – something big is brewing in the region and yet the mainstream media refuses to enlighten their readers as to what is occurring under their noses. When all this breaks loose, as it surely must – people are going to be in deep shock and anger. Too late then?

IRAN, RUSSIA, CHINA TO HOLD JOINT WAR-GAMES IN 'MESSAGE TO THE WORLD'

Nov. 28, 2019. *Iran*, China, and Russia will hold in the coming weeks their **first-ever** joint war drills, which leaders say are meant to send a "message to the world" about **increased military cooperation between the rogue countries**.

The commander of Iran's navy, Rear Admiral Hossein Khanzadi, said Wednesday that the Islamic Republic **will team up with Moscow and Beijing** within the next month to **hold the mass war drills**.

"When we talk about joint war-games, we are talking about two or more countries with a high level of relations in various political, economic and social fields, which culminate in cooperation in the military sector, with war-games usually being the highest level of such cooperation," Khanzadi was quoted as saying in remarks to Iran's state-controlled press.

"A joint war-game between several countries, whether on land, at sea, or in the air, indicates a remarkable expansion of co-operation among them," the military leader said.

The joint war drills will be **aimed at sending a message to the world**, particularly Western nations, like the United States, that have sought to constrain Iran's expanding military ambitions.

"The joint war-game between *Iran, Russia, and China*, which will hopefully be conducted next month, carries the same message to the world, that these three countries have reached a meaningful strategic point in their relations, with regard to their shared and non-shared interests, and by non-shared I mean the respect we have for one another's national interests," Khanzadi was quoted as saying.

The Iranian military leader emphasized the importance of performing military drills in the sea, where the Islamic Republic has been particularly troublesome for Western nations. Iranian naval vessels routinely harass American military ships and have played a role in various sabotage efforts aimed at disrupting international shipping lanes.

"The war-game seeks to deliver this message to the world that any kind of security at sea must include the interests of all concerned countries. We do not condone the kind of security that only caters to the benefits of one specific country at a specific time and which disregards the security of others," *Khanzadi said*. **"Seas, which are used as a platform for conducting global commerce, cannot be exclusively beneficial to certain powers"**.
