

## **GLOBAL WARMING IS BIG MONEY!**

**“THE WEATHER CHANNEL MESS”** BY JAMES SPANN

JAN 18, 07. Some “climate expert” on “The Weather Channel” wants to take away AMS certification from those of us who believe the recent “global warming” is a natural process. So much for “tolerance,” huh?

I have been in operational meteorology since 1978, and I know dozens and dozens of broadcast meteorologists all over the country. Our big job: look at a large volume of raw data and come up with a public weather forecast for the next 7 days. I do not know of a single TV meteorologist who buys into the man-made global warming hype. I know there must be a few out there, but I can’t find them. Here are some basic facts:

\* Billions of dollars of grant money is flowing into the pockets of those on the man-made global warming bandwagon. No man-made global warming, the money dries up. This is big money, make no mistake about it. Always follow the money trail and it tells a story. Even the lady at “The Weather Channel” probably gets paid good money for a prime time show on climate change. No man-made global warming, no show, and no salary. Nothing wrong with making money at all, but when money becomes the motivation for a scientific conclusion, then we have a problem. For many, global warming is a big cash grab.

\* The climate of this planet has been changing since God put the planet here. It will always change, and the warming in the last 10 years is not much different than the warming we saw in the 1930s and other decades.
